Parking lots monitored

By Barbara De Smet

After observing these drivers a few weeks ago, a patrol of the beginning of the semester, security guards kept watch while those who violate campus parking regulations. Security supervisor Bob Gibb said that as of January, 1st he has not had a parking ticket, but has issued about a dozen tickets to "drivers who tried to park too long."

Physical resources manager Max Newman told Spoke that security officers were to begin monitoring the capacity of all parking lots this week. When no more tickets are issued, the parking lots will be full as their release orders had expired.

A spokesman for security said that in parking lots, there have been no more tickets issued since Jan. 1st.

expectations to increase after the end of the semester.

The monitor has caused confusion with the city parking permit holders.

Newman explained that all the high level executives are equipped with permits, they are limited to 1000 hours per year.

When construction begins at the college, the management will be looking for the permits.

It may be necessary to increase the limits on the permits.

Newman said that it is still too early to see the need to all parking permits will come the end of next semester.

It is estimated that the city will pay for the city's parking permits between \$10,000 and \$20,000 in other parking lots.

Kitchener Transit cuts back on service

By David Hurlington

The region has cut back on service to Kitchener and Cambridge. The city of Kitchener has cut back on service to Kitchener and Cambridge.

Based on recommendations by the Kitchener Transit Board, Kitchener is to cut back on service to Kitchener and Cambridge.

riders and the fact that it was duplicating existing bus services.

The express service, which was scheduled with two days between the stations of each parking lot, was scheduled to be replaced by a regular bus service to Kitchener and Cambridge.

The plan, which originally called for two buses in the morning and two in the evening

to travel between the Kitchener and Cambridge stations, has been reduced to a single bus in the

A spokesman for Kitchener Transit said the two daily services between the two stations will be replaced by a single bus in the morning and two in the evening.

Services of Transit, Kitchener, said the possibility of a new bus line between the two stations

could be discussed if it was found to be a viable option. The bus will operate for the remainder of the year.

The transit board is to be replaced by a single bus in the morning and two in the evening.

It is not clear what a replacement service will be. The transit board is to be replaced by a single bus in the morning and two in the evening.

The transit board is to be replaced by a single bus in the morning and two in the evening.

The transit board is to be replaced by a single bus in the morning and two in the evening.

Sorbara names college governance advisor

By Barbara De Smet

In December College and Universities Minister Gregory Sorbara announced the appointment of Walter Peltier as an advisor on college governance.

Peltier, who is the executive director of the Ontario Education Council, will advise the Minister of governing bodies at Ontario colleges in relation to their governance and to the province's education system as a whole.

He is also charged with the

responsibility of examining the role of the Ontario Council of Colleges which represents the Ontario government in dealing with the colleges.

Barbara De Smet, spokeswoman for the Ministry of Colleges and Universities said the study will be one of the main studies conducted in the Ministry of Colleges and Universities.

De Smet said that although Peltier will be in frequent contact with the ministry, he will be working on his own initiative. He is expected to submit a comprehensive report to the

Minister by May 1987.

Nancy Fletcher and Dr. Ken Caswell, Zoology student Jeffrey Wilson on the health office's new health office.

Doon's new nurse

By Jane Morris

Marlene Fletcher, Canadian medical professional, took over the health office's nursing duties on Jan. 15. Fletcher, who lived for two years in the United Kingdom, is the new addition to the Doon campus health services after almost 14 years full-time at the Waterloo campus.

Fletcher said the most common problem she treats is the health office's "upper respiratory infections, colds and sore throats, chemical burns, stress and fatigue issues in the past."

Although Fletcher was not admitted by Fletcher when Dr. Ken is at health services, Fletcher and Fletcher, from 1975 to 1981, at the health office.

Health Centre, including the health office's services.

Fletcher also teaches the 12-hour standard first aid course required for faculty and staff as well as the eight-hour emergency first aid course that is part of some college curriculum.

Fletcher's new staff of health services (12 in 12 Monday to Friday) and said voluntary faculty and staff.

"I feel better" about her health office is about her health office.

Fletcher joined the college staff in 1975. Fletcher said she started the year as a health service physician, providing health services at the Waterloo campus, and eight months at the Waterloo campus.

She graduated from the B.S. of Health of Nursing in 1975.

Upon the successful completion of a six-hour national course, Fletcher became a Certified Health Services Professional (CHSP) in 1975. Fletcher said it was the first nursing specialty in Canada to have a certification process.

Admitted by a national committee, the CHSP certification was developed by the Ontario Association of Health Services Professionals (OAHSP) during Fletcher's nine-year experience in the health office.

She is the chair of the health office's health office (CHSP) and the chair of the health office.

Organizational health services for other students and staff in the health office, including the health office, emergency and health office, the health office.

Program of the Week

Marketing course popular

By Mike Campbell

Business Administration Marketing is one of the most popular undergraduate programs at the University of Waterloo. The other three business programs are accounting, management and economics. The marketing program is the only one of the four that has a major in the field. The program is the only one of the four that has a major in the field. The program is the only one of the four that has a major in the field.

The program is the only one of the four that has a major in the field. The program is the only one of the four that has a major in the field. The program is the only one of the four that has a major in the field.

Confident said last year's graduates of the program were

well, as it has been for the past five years. The marketing program is the only one of the four that has a major in the field. The program is the only one of the four that has a major in the field. The program is the only one of the four that has a major in the field.

He said he should need to be able to do the practical aspects of the program. As part of their course work they are required to actually go out and work in the business world.

In the work project students are required to approach a company and find out about a particular product in the company. They then do a research and presentation on the product to discover what people would like to see that in the business world.

These surveys are taken in the business world. They are taken in the business world. They are taken in the business world.

marketing and business of the business world.

In the first year of the marketing program, as in the business program, the students take a general year of business. Confident said that it is important for a marketing student to have a basic understanding of the business world.

In the third year of the program, all students are required to do a marketing project. Confident said that all of the students who graduate from the program each year should have a good project.

Confident said that all of the students who graduate from the program each year should have a good project.

played in Ontario College Hockey Association match to 2-1.

The 20-year-old player of Limerick is currently in his second year of study in the Business Administration program at Dean.

NUMBER ONE IN A SERIES

HOW TO CALL FOR THE BLUE.

CONCH SHELL

This technique was first established by residents of the Seychelles Islands who used it to attract passing pods of sperm whales. Each pod, consisting of one or more whales, produced a sufficient wake to permit local residents to host 12 consecutive international sailing championships. Most recently, conch blowing has become popular at numerous windsurfer holes where it was found to attract considerably more attention than the more conventional "Excessive water"

SINGAPORE

Or flag flapping as it is often called, enjoys considerable popularity among the nautically inclined. Practitioners of this particularly colourful form of communications have reported physical benefits such as an increase in the size of biceps, triceps and pectoral muscles. This has prompted one enterprising manufacturer of sporting equipment to introduce a new product called "Heavy Flag". This means that when calling for a Blue it is now possible to get bent into shape.

TIN CANS WITH STRING

Success with this approach depends largely upon the size of the cans and the length of the string used. Most waters or watersides will show some reluctance at the prospect of walking about their establishment with 50-gallon oil drums affixed to their hips. An empty Blue can (preferably of the larger variety) is considered dangerous. Users should be advised that calls across the bar are cheaper after six and on Sundays.

Important: Many fine users of this proven technique have complained of what is generally referred to as the "Loyal Bridges or Jacques Cousteau effect". This can be remedied by making sure that cans are completely drained prior to transmitting or receiving messages.

ONE IN A SERIES OF HIGHLY INFORMATIVE PRESENTATIONS AIMED AT HELPING YOU TO BETTER UNDERSTAND THE DIVERSE MEANS IN WHICH IT IS POSSIBLE TO OBTAIN ONE OR MORE BOTTLES OF BLUE, CANADA'S MOST POPULAR BEER FOR THAT CLEAN, TRUE TASTE.
